BUDGET REQUIREMENTS TO COMPLETE VISUAL INSPECTION CYCLE FOR FISCAL

YEAR 2011 -2012      \$ 2,154,800

**NARRATIVE INFORMATION --- VISUAL INSPECTION**

(Attach Additional Sheets if Needed.)

- A. **Personnel Needs** - *Completion of visual inspections for Davidson County will require nine (9) Rural, Residential and Commercial appraisers and five (5) support staff members. During the reappraisal cycle, the Assessor's Office will begin doing some visual inspections using oblique photography (Pictometry). This should result in increased efficiency and accuracy. In addition, field data collectors will begin to enter data directly into the Assessor's records using field data tablets.*
- B. **Office and Equipment Needs** - *Existing office space at 800 2<sup>nd</sup> Avenue North will be utilized and is adequate to house regular and reappraisal staff members. It is anticipated that the office will move to the Howard School building in 2010. The facility there should be adequate for all the Office's needs.*
- C. **Training Planned and Needed for Staff** – *The Assessor's Office is building out its training program and will offer in-house programs on various topics, including: call center training, land valuation, and statistics. The training program will also continue to ensure that staff take other appropriate courses, including: IAAO courses and seminars will also be utilized, DPA courses, and training on specific software including Pictometry, Spatialest, Income Works. In addition, analysis database training will be conducted periodically to ensure appraisers retain model calibration techniques.*
- D. **Geographic Areas of Responsibility Assigned to Inspection Personnel** - *Davidson County is divided into nine (9) appraisal zones, which are currently subdivided into 784 residential, 16 rural and 82 commercial neighborhoods. The field list will be scheduled by neighborhood type within each appraisal zone and assigned to various teams. Residential/Rural/Condo neighborhoods will be worked by four (4) teams with responsibilities assigned as follows: Team 1 - Zone 2, Team 2 - Zones 3,4,7,& 9, Team 3 - Zones 5 & 6, Team 4 - Zones 1 & 8, Commercial neighborhoods will be listed by one (1) team of four by neighborhood and grouped quarterly by zone and parcel count. Multi-class and exempt properties (other) will be reviewed by the commercial team leader along with a two person team. A detailed schedule of neighborhoods to be inspected is attached.*
- E. **Production Rates** - *Production rates for residential properties is estimated at 100 parcels per day; rural properties at 50 parcels per day; commercial properties at 15 per day and exempt and other properties at 20 per day.*
- F. **Map Maintenance Schedule and Explanations** - *Map maintenance in Davidson County is the responsibility of the Metropolitan Planning Commission.*

*Sales maintenance of Name, address, legal and parcel information is transferred daily using our Deeds staff of four personnel.*

- G. **Quality Assurance Efforts Planned** - *Team leaders will review the work of each field staff member daily and will also review each neighborhood upon completion. In addition, 5 % of all work will be field audited to ensure the accuracy of data collection. This will be accomplished by a senior staff appraiser. The Office has a quality control section of four that routinely monitor the work of each residential team for data consistency.*
- H. **Other** - *Building permits data is received weekly from the Metro Codes Department and will be reviewed by neighborhood, within each zone. Also, building permit data from the small cities are received monthly. In addition to permits, the Office runs a comparison to all MLS sold and pending sale properties and checks all parcels that are greater than ten percent higher or lower from data in the Assessor's records. This is accomplished the same time permits are worked at strategic times during each fiscal year.*
- I. **Assessment Roll Maintenance** – *The assessment roll maintenance during the visual inspection cycle will be conducted by the same appraisers as used for visual inspection. The visual inspection required during peak assessment roll maintenance times has been reduced to allow for this important function.*

**SECTION II**

**REVALUATION YEAR OF CYCLE**

	REVALUATION YEAR	2013	
TOTAL PARCELS	URBAN (1" = 100' Maps)	231,100	(Except Comm/Ind, Other)
(Projected)	RURAL (1" = 400' Maps)	14,900	(Except Comm/Ind, Other)
	Commercial/Industrial	20,000	(All Maps)
	OTHER	9,000	
	TOTAL	275,000	

BUDGET REQUIREMENTS TO COMPLETE REVALUATION PROGRAM FOR FISCAL  
 YEAR 2012-2013 \$ 4,012,700

**NARRATIVE INFORMATION – REVALUATION YEAR**

(Attach Additional Information if Needed)

- A. **Personnel Needs** – *The Assessor's Office estimates that approximately 88% of its staff will participate in the work necessary during the revaluation year. During the fourth year of the cycle, these personnel will perform all work necessary work, including: administration, valuation analysis and the production of the assessment roll, quality control, appeals management, customer service, and information technology assistance to all phases scheduled for the revaluation year.*
- B. **Office Space and Equipment Needs** (Space for State Personnel Providing Assistance) *The existing office occupied at 800 2<sup>nd</sup> Avenue North is adequate to house. However the office is anticipated to move in 2010. It is anticipated that the new space will be sufficient. There should be no need for State personnel; however, if they should desire to assist space will be provided.*
- C. **Use of Aerial Photographs** – *The Office anticipates integrating the use of oblique photography in its inspections, including reappraisal visual inspections, and during informal reviews and appeal hearings. The office also has access to aerial photography is available through a GIS system operated by the Metropolitan Planning Commission which is updated each year. This will be used to identify wooded areas for delineation of the agricultural, forest, and open-space land act.*
- D. **Assistance Request of Division of Property Assessments** – *To evaluate procedures through quarterly monitoring and suggest any improvements that might be implemented.*
- E. **Development of Sales File** – *The Davidson County Assessor's Office has adopted the procedures for collecting and verifying sales data, which are used by the State Division. Deeds are received daily on complete transfers. Assessor staff confirms all information on file with the deeds and enter the sale codes and price paid. On residential transactions, a "Q" is entered on file unless it is determined from the face of the deed that it is disqualified. All non-arms-length transactions are sent a verification form. All commercial, industrial, and farm sales are entered into the system as an "L" until such time as verification is verified with the grantee, grantor, or agent. Access to the Multiple Listing Service (MLS) is also available to assist in the verification of sales.*
- F. **Neighborhood Codes** – *Neighborhoods Codes have been established within the nine (9) appraisal zones by property type (Residential, Condo, Res. PUD, Rural, Commercial, Comm. Condo., and Industrial) and are maintained on a daily basis by the appraisal staff.*

**G. Improvement Valuation**

1. Base Rate Development – Base rates are developed using data from the Marshall Swift Valuation Service. These base rates are adjusted to local cost and calibrated by market data to each neighborhood by the appraisal staff.
2. Analysis - Statistical studies will be performed for each neighborhood and zone to meet IAAO and State Board of Equalization standards. Upon completion of a neighborhood, the Quality Control staff reviews for consistency to assure all data is being processed correctly. The project manager, residential and commercial supervisors review all statistical data to ensure that standards are adhering to the Division of Property Assessments guidelines for compliance.
3. Special Features and Yard Items Valuation – Rates are developed, using the Marshall Swift Valuation Service, to be used in the valuation of special features and yard items. It is anticipated that we will use the majority of rates developed by the State Valuation Coordinator of the Division of Property Assessments and adjusted to the local market by a multiplier.
4. Collection & Use of Income & Expense Information - Income and expense data is collected daily in interviews with property owners and during the appeals process. This information is entered into a database and maintained for each year. The information is used in conjunction with published sources to develop income and expense models for the major commercial/industrial properties. This information is also stored at the parcel level on the appraisal system. In addition to the above, we may contract with an outside firm to produce all attributes of an income approach for each major improvement types.
5. Quality Assurance Efforts – Audits are performed during the visual inspection cycle, the revaluation phase will be analyzed using sales ratio reports, before/after value compare reports, monthly audit reports and performance edits. This will be conducted in conjunction with other error and edit reports produced by the technical support division to ensure a quality product for the 2013 reappraisal.

**H. Land Valuation**

1. Rural Land & Use Value - Rural land schedules will be developed from market data for each of the rural neighborhoods. Use values will be obtained from the State Division of Property Assessments.
2. Residential/Small Tract - Values will be developed through sales analysis at the neighborhood level within each appraisal zone. It is anticipated that the GIS/CAMA will plot the sales data to the map in the neighborhood master file. Statistical analysis will be used to insure accuracy along with before/after value comparison reports and a in-depth quality control program..

3. Commercial & Industrial – Values will be developed through sales and income analysis at the zone, and neighborhood level. Each improvement type will be studied to assure that the value levels are consistent with state standards.
  4. Quality Control - Statistical analysis, including sales ratio studies, will be performed for each neighborhood and zone to insure accuracy. As each neighborhood is completed it will be monitored by the QC staff to ensure that all items on the neighborhood key sheet are logical and explained. In addition standard audit and edit reports will also be reviewed.
- I. **Mineral and/or Leaseholds** - Leasehold appraisals will be conducted in accordance with State Division of Assessment’s guidelines. No mineral interest values have been discovered within the county.
- J. **Valuation Analysis**
1. Detailed Analysis – There are many programs and reports which are used in the current appraisal system to determine the level of appraisal and equity between appraisals. These existing reports have been incorporated into our appraisal software. In addition staff programmers produce special needs reports to analyze the values on a neighborhood basis.
  2. Final Value Correlation – The appraisal software used in Davidson County has the ability to perform cost, market and income approaches to value. An appraiser simply selects the approach desired based on the quantity and quality of the data and the values are calculated.
- K. **Updating of Ownership Information** – Ownership data is updated by the Deeds Section of the Assessor’s office for complete transfers of ownership. Split-transfers are the responsibility of the Mapping Division of the Metropolitan Planning Commission. The Mapping Division updates the Land Information System, whose data is then transferred daily via FTP (File Transfer Protocol), to the Assessor’s appraisal system. After the data is transferred, it is audited by the Assessor’s staff for accuracy.
- L. **New Construction** - Building permit data is received weekly from the Metro Codes Department and will be reviewed by neighborhood, within each appraisal zone. The 2012 and 2013 new construction, demolitions, will be worked by field reviewers during the valuation phase to ensure the roll reflects the correct improvement data.
- M. **Final Value Meeting** – Upon completion of the valuation analysis by the appraisal staff, a sales file will be provided electronically to the Division of Property Assessments for review. If they desire additional data, it will be provided in addition to the sales file. A meeting will be scheduled with the Regional Appraisal Supervisor and Area Appraisal Manager to ensure all

*standards have been met. This meeting will be conducted prior to the mailing of appraisal notices.*

- N. **Hearings (Formal and Informal)** – *Upon completion of the valuation phase of the program, informal hearings will be conducted by Assessor’s staff for a period of five to six weeks. The reviews will be held in one of three ways: on-line requests via the internet, telephone requests, and scheduled appointments. All three will be maintained in a database and routed to the appraisers who calibrated the neighborhood models. These hearings will be held daily, by appointment, with approximately thirty appraisers available. Once these reviews are concluded, informal review result notices will be mailed in late May and appointments will be taken for the Metropolitan Board of Equalization. The Board will appoint hearing officers to assist with appeals.*

O. **Computer Appraisal System:**

1. Do you currently use the State of Tennessee Computer Assisted Appraisal System (CAAS)? Yes \_\_\_\_\_ No  X  If No, name of system currently in use.

***ASSESSPRO by Patriot Properties***

2. Do you plan to change to another computer system during the reappraisal cycle covered in this plan?  
Yes \_\_\_\_\_ No  X  If Yes, detailed information must be included that defines the computer system and explains the county’s plan of implementation.

**REVALUATION PHASE DELINEATION CHART DESCRIPTIONS**

**A. ADMINISTRATION**

1. Planning/Organizing - The time an administrator spends in establishing goals, policies and procedures and organizing the work activities for a timely completion of each reappraisal phase.
2. Directing/Controlling - The time an administrator spends in guiding and supervising personnel responsible for the accomplishment of the clerical and appraisal activities necessary to complete each phase.

**B. CLERICAL**

1. File Cleanup - Time required in the correction of file reports such as incorrect land codes, improvement types, property types, etc.
2. Ongoing Assessment Roll Maintenance – Daily clerical maintenance of the assessment roll i.e. sketching, keying permits, etc.
3. Inspection Corrections - making corrections to properties reviewed during the inspection cycle.
4. Data Entry - keying changes and corrections to assessment roll.
5. Processing/Screening - processing and examining all data prior to data entry and to edit completed data upon return from data processing
6. Sales File Cleanup – Clerical duties changing sales codes, mailing sales verification forms to unique residential and commercial, farm properties.
7. Override Properties – Data entry of special properties outside the scope of an appraisal model.

**C. PRELIMINARY ANALYSIS OF FILE**

1. Neighborhood Codes - Time required reviewing the current area code assignments and determining the need for any changes or corrections.
2. Improvement Types - reviewing the current improvement types used and to determine any needed changes, corrections or additions.
3. Special Features/Yard Items - reviewing the current status of the special features and yard items to determine any needed changes, corrections or additions.
4. Rural Land - reviewing the current rural land listings for accuracy and consistency, and to review the methods used to establish values and to determine any needed changes or corrections.
5. Income and Expense - reviewing the commercial properties and to determine the methods and forms to be used in the collection of income and expense information.
6. Sales File Cleanup - reviewing the status of the sales file using sales reports and deed inventories. The sales file should be up-to-date and listed correctly.
7. Override Properties - Time required reviewing the listing of properties that have an override code. Delete all override codes making any needed changes or corrections.

**D. VISUAL INSPECTION CYCLE**

1. Urban - Time required reviewing all urban properties and making required corrections.
2. Commercial/Industrial - reviewing properties located in commercial neighborhoods.
3. Rural - reviewing properties in rural neighborhoods. This review will also review the current use of properties on the greenbelt program to see if they still qualify based on current law.
4. Exempt - A comprehensive review and listing of properties exempt by application.

**E. ONGOING MAINTANCE OF ASSESSMENT ROLL**

1. Land Changes - Daily updating of land characteristics due to deed splits and new subdivision recordings. AC, AD, and AN reports.
2. New Construction/Permits - A review of properties that have permits for physical characteristics changes due to new construction, demolition, etc. This is also accomplished for material values for the 1/1 roll and the prorate roll in September.
3. Reviews – A review of properties at the request of property owners, or other reason to ensure the properties are listed correctly.
4. Appeals/Other – Preparation for and review of property appeals.
5. Training – In-house training on new equipment, methodology. Formal training in appraisal and within the scope of the Assessment Certification and Education Program administered by the State Division of Property Assessments.

**F. LAND VALUATION**

1. Urban - analyzing vacant and improved sales to determine appropriate units of comparison, to establish base lot values, front foot and square foot values as well as units buildable. Urban parcels are located on 1" - 100' or larger scaled maps.
2. Commercial/Industrial - Time required analyzing vacant and improved sales and to determine appropriate units of comparison as well as establish base front foot, square foot and acreage values.
3. Rural - analyzing vacant and improved sales of properties in rural neighborhoods and to determine a preliminary rural land schedule for tracts greater than 15 acres.
4. Greenbelt-Use Value – Application of the new use schedule supplied by the Division of Property Assessments.
5. Other – Time required analyzing special land problems such as blending rural and urban land.

**G. IMPROVEMENT VALUATION**

1. Residential – valuing all residential building types in each neighborhood.
2. Commercial/Industrial – valuation of all commercial and industrial buildings located in each neighborhood.
3. Exempt - reviewing the values produced by base rate models for exempt properties.
4. Other – multi-class property appraisals.

**H. SPECIAL PROPERTIES VALUATION**

1. Urban – review of unique residential properties typically above 6,000 square feet in total finished area.

2. Commercial/Industrial – review of unique commercial properties to include leasehold analysis.
3. Rural - analyzing and blending unique rural properties with residential properties.
4. Greenbelt/Use Value - reviewing results and notices of greenbelt properties.
5. Other – Final analysis of leasehold and multi-class properties.

**I. FINAL VALUATION AND REVIEW**

1. Residential – A sample review of each neighborhood utilizing reports developed to ensure equity among all classes of urban property.
2. Commercial/Industrial A sample review of each commercial/industrial building type to ensure equity among all classes of commercial property.
3. Exempt – A final analysis of exempt properties paying special attention to multi-class properties.
4. Leaseholds/Other – Final determination leasehold analysis.
5. Final Value Meeting - Meeting with the State Division of Property Assessments to review all phases of the completed reappraisal program for accuracy and completion. Appraisal change reports and all analysis reports should be reviewed to determine needed changes or corrections.
6. Final Analysis - Interpreting final sales analysis prior to printing assessment change notices and property record cards. Compiling pertinent appraisal tables, schedules, manuals and maps for future reference.

**J. INFORMAL HEARINGS**

1. Urban – time allowed for accepting and acting on informal review requests for urban properties.
2. Rural – accepting and acting on informal review requests for rural properties.
3. Commercial/Industrial and Special Properties – accepting and acting on informal review requests for commercial and special properties.

**K. METRO BOARD OF EQUALIZATION**

1. Organizational Assistance – appraisal and clerical support for metropolitan board of equalization hearings.
2. Technical Support - Time allowed setting up and supporting the Metro Board of Equalization.
3. Hearing Officer Support – Advising hearing officers on appeals and defense of individual properties.
4. Other – All other activities not covered above.
